IN MEMORIAM

Senator Teller introduced the following, resolution upon the death of the late Hon Jerome B Chaffee

Resolved That submitting humbly to the wise and inscrutable providence who removed from our midst since the last state convention the late Hon Jerome B Chaffee, we while bowing sincerely—deplore his death and here testify our estimate of his character although he was continuously engaged in mining for a quarter of a century he was always active in advancing the interests of the state and country By patient, strenuous and persistent efforts he more than any other man living contributed to the admission of the state into the national union In analyzing his character it can be said that he was a just man, a correct thinker and an energetic actor He was never ostentatious nor boastful, was a leader of men and one of the foremost of his party in the state and nation, unaffectedly simple and gentle in manner without conceit in himself or deceit towards others, a true and lasting friend and not an implacable enemy, modest in all his pretensions but firm of purpose and formidable as an antoxonist, kind in temper and forgiving in disposition, in religion always tolerant, in political faith ever a patriotic and firm republican In his demise the party of the state and nation have lost a wise and able counsellor and a most steadfast adherent Yet his personal and political friends those who knew him best and loved him most, as well as his rivals, all of whom he genuinely admired and most of whom he excelled, as they recall to mind his quiet kindly greeting and cordial friendship are apt to forget their admiration of his sterling qualities of mind and character in personal affection for the virtues of the man

Senator Teller supported the resolution in a short speech and was followed by Judge Parks of Lake county General Hamill, of Clear Creek, moved the adoption of the resolution by a rising vote and it was so carried unanimously

The nominations for governor closed at 12 30 with Wm H Meyer, E D Wigal, James Moynahan and Benj Eaton as candidates An informal ballot was taken, followed by formal voting, as given below

Mr C J Driscoll of Arapahoe offered the following resolutions:

Resolved, By the republican party of the state of Colorado in convention assembled, that we do most heartily approve of and recommend legislation for the accomplishment of the following objects, to-wit

First The establishment of a bureau of labor statistics for this state, that our law makers may receive such knowledge of the true condition of the laboring masses as will enable them to intelligently legislate upon matters pertaining to their welfare.

Second That the public lands of the state and United States be reserved and sold only to actual settlers, that not another acre be disposed of to railroads or speculators, and that all lands now held for speculative purposes be taxed to their full value.

Third The adoption of measures providing for the health and safety of those engaged in the several industries of the state and for indemnification to those engaged therein for injuries received through lack of necessary safeguards, and also for the security and prompt payment to employes of all wages earned by them

Fourth The enactment of laws providing for arbitration between employers and employed, and to enforce the decision of the arbitrators.

Fifth—Such lawful statutory regulations regarding the employment of children under fifteen years of age as will ensure them the right to an education and prevent the overtaxing of their physical strength

Sixth—The adoption of such rules and regulations for the government of the inmates of the state penitentiary as will prevent their labor and productions from competing with honest free labor.

The resolutions were unanimously adopted

THE PLATFORM.

The platform as adopted was very brief. It reaffirms the principles of the republican party as adopted by them during the past twenty-four years It recognizes the nation's obligation to soldiers and sailors of the late war and bitterly denounces the action of the president's wholesale veto of pension bills during the last session of congress, favors the tariff of 1867 on wool and advocates high tariff upon low priced labor imported to Americans to injure American citizens It demands maintenance of the present tariff on lead, the free coinage of silver on an equality with gold, favors wise regulation of inter state commerce in order to prevent extortion of common carriers, favors the adoption of some means to dispense with convict labor in our penitentiaries, opposes importation and immigration of Chinese to be used as laborers, demands that all public lands shall be held for actual settlers only and not be sold, favors the appointment of a national committee to arbitrate all questions in dispute between laborer and employer, and heartily endorses the action of the National Metallic association in this their endeavor to protect the silver interests of the country.

After the adoption of the platform the convention adjourned sine die.

The Meyer combination in the state convention was a success except as to secretary of state. Mr. Rice, the nominee, is a credit to the ticket, but the friends of Mr Sagendorf will be sorely disappointed at his defeat. They have the satisfaction of knowing that a good fight was made and a clean canvass. The banner republican county of the state deserved a place on the state ticket and should have had it.

The liquor dealers of Illinois in a state convention yesterday offered their support to the candidates who have shown themselves to be "in favor of personal liberty." Prohibitionists having evidenced their desire to overthrow the party of moral ideas, they can now form an alliance. As far as numbers and substantial assistance are concerned the aid of the liquor sellers is of more value in Illinois than that of the ultra temperance element.

News from Bulgaria indicates the approach of the crisis. Notices for the election of the assembly which will choose Prince Alexander's successor have been issued. The special Russian agent does not approve. The terms of the ultimatum may be accepted by the regency but the people are indignant and resentful. The czar gave notice upon the dispatch of General Kaulbars with the ultimatum that if Russia's terms were not complied with the agent would return at once, and any uncivil treatment would be immediately followed by active interference. Ignoring Russia's wishes in the election must be the height of incivility, and an impressive hint would be most naturally the next thing on the programme. King Carol of Roumania appears to be the favorite candidate with the Bulgarians. He was born in 1839, is a Hohenzollern, and has occupied the Roumanian throne for twenty years.

Mr. Oliver Ames was nominated yesterday by the republican convention of Massachusetts for governor by an almost unanimous vote. This seems to be a victory of the regular republicans over the "mugwumps" as the Springfield Republican and other independent republican papers of that state have vigorously opposed his nomination. They have claimed that his nomination "would be a mistake on the national scale when James G. Blaine was nominated." But Mr Ames, as described by the New York Evening Post, is a man "of amiable disposition, esteemed by his neighbors and respected by the community in which he lives," and his nomination has been secured by his friends without a very serious contest. He is a son of the late Oakes Ames of Credit Mobilier fame, and is well known in Colorado through his connection with the Union Pacific railroad.

The preliminary lobby work at Denver had laid out the Meyer campaign so that his nomination was soon accomplished yesterday after the voting began. From the material before it the convention made what will probably prove to have been the best choice possible. Up to 1882 Meyer was a local politician who was generally supposed to not greatly differ from the rest of the political leaders in the southern counties. But in that year he was elected to be lieutenant governor of the state and in that position made a very favorable impression which the facts will show be merited. In the performance of his duties as presiding officer of the state senate in '83 he showed a full knowledge of parliamentary rules, and his decisions were generally prompt and just. William H Meyer was born at Hanover, Germany, in April, 1847. His father was a well-to-do farmer and stock raiser. At the age of ten years Mr. Meyer suffered a severe misfortune in the death of both parents, and was practically thrown upon his own resources. Receiving a collegiate education at Hanover, he emigrated to this country in 1864 and took up his residence at Lexington, Ky., from whence he was driven in the spring of 1864 by the famous John Morgan raiders. Removing to St. Louis, being yet a mere boy he prepared to come west, and in the fall of the same year arrived in Albuquerque, N. M., where he obtained employment as a clerk for a year and a half, prior to coming to Colorado, which he did in July, 1866. Taking up his residence at San Luis, Costilla county he entered extensively into farming and stock raising, at which he has been actively engaged ever since. He served as county clerk for Costilla county for nine years ending in the spring of 1876 and was a member of the constitutional convention in 1875. In 1876 he was elected senator to the first state legislature and in 1882 was chosen lieutenant governor of the state. He has also filled other offices of minor importance. Mr Meyer is yet a young man, only 39 but the wonderful rapidity with which he rose by successive steps from obscurity to next to the highest office within the gift of the people of Colorado is ample evidence of his talents and of his high repute throughout the state. Mr. Meyer will make an energetic race for the office for which he is nominated and he has undoubted sources of strength. The German element are united in his support, and he will poll a great vote in the southern counties, where his popularity is unbounded.

Some Questions

COLORADO SPRINGS, September 20, '86

To the Editor of the Gazette

This morning the whisky case of The City vs C W Church, came up for trial before Justice Severy and the city was ignominiously defeated. The witnesses furnished by the prosecution not only did not swear that Church or his clerks had sold them whisky by the drink but on cross examination they were compelled to swear that Church and his clerks had repeatedly refused to sell them drinks when applied to for that purpose. Now, Mr Editor, are we forever to be imposed on by such farces as so called prosecutions like these have become? Should our city attorney be allowed to bring suits without having witnesses to sustain them with the result of making the honest cause of temperance ridiculous? There is another result which our tax payers should take into account. The suit above referred to has cost the city nearly one hundred dollars. Has anyone been benefited by this expenditure? Has anyone been gratified by it? Has any one made anything of it? Was there any [illegible] intended? If not what was the suit brought for? It was well known that it could not be supported by witnesses.

Mining Matters

A good quality of cinnabar ore is found in La Plata county.

One hundred and twenty one thousand eight hundred and ninety two tons of ore were shipped from Telluride during the week ending September 16th.

The receipts at the Denver Public Sampler for August were 3,654 tons, valued at $[illegible] 716 45.

Diamond Joe Reynolds, of Chicago has purchased the Red Elephant group of mines near Georgetown at sheriff's sale for $30 300.

Governor Tabor has purchased a half interest in the Thespian mine, at Leadville with its mining plant. The consideration was not stated.

English experts who have been examining the famous Iron Mask at Red Cliff estimate the amount of ore in sight at from $1 800 000 to $2 100 000.

The Terrible mine, Custer county, which is owned by the Omaha and Grant people, produces twenty tons of clear cerusite (crystalized carbonate of lead) every twenty-four hours.

At Breckenridge, Colorado the Jumbo mill is working steadily night and day, about 30 tons every twenty four hours, milling about $10 a ton free gold. Four men are employed in the mill. It costs $4 50 to mine, haul and mill.

Red Cliff as a mining camp is already on her feet and her progress in prosperity is assured. The ore production will now increase rapidly. The shipments for August amounted to 148 car loads or about 1500 tons. These ores are of unusually high grade. Returns which we have seen would indicate a value $75 000 for the above product. Several mines have since then developed ore and will contribute to future shipments, and one of the mines, undoubtedly the best, stoped no ore during August, but shipped about 55 tons daily, the product of drifting for opening only.—[Mine, Stack and Mill.

A wild craze has struck Leadville over a new electric indicator that is used to determine the location, from surface observations, of underground mineral bodies. It is the invention of a prominent electrician of Boston and is constructed upon the theory that the strong electric currents known to be induced by large mineral bodies can be utilized to locate the latter. The machine is a simple affair consisting of electrodes which connect with batteries in a box containing an electric needle. The influence of the electric subterranean currents upon the needle is supposed to indicate the strength of an ore body. For instance, one that would swerve the needle 60 degrees would be considered very strong, while 15 or 20 would be correspondingly smaller.—[Leadville Dispatch.

What the future of Leadville will be is as yet only a matter of conjecture. That its vast mining interests and its importance in the list of producers which are constantly adding to the wealth of the world are yet in their infancy is evidenced by the numerous rich strikes, and the increased output of the older mines, and the large number of new and valuable locations made in the vicinity. In addition to the valuable mines in the immediate neighborhood, the Iron Mask and other rich producers in the vicinity of Red Cliff, and a large number of valuable localities in Chaffee county, are all subordinate to Leadville where their rich ores will be treated and the values of their riches realized. These facts make of the city the center and capital of what is perhaps the wealthiest mining district in the world and as such Leadville is surely destined for a glorious future.—[Herald Democrat.

It may be stated as a fact amply demonstrated, the business of mining for gold, silver and lead, even with the heavy decline in the price of silver, is when properly conducted more profitable on the whole than any other pursuit in which men and capital can engage. This assumption is based upon the premise that the mine carries good grades of ore which can be readily marketed, and it may be added few are worked unless these conditions are present. The mining industry of Colorado is a profitable industry. The yields this year are greater than ever before. With the prices of lead and silver restored to their normal condition, and this result is not far distant, mining will take the first place among the leading industries of the west. We are now producing a greater volume of silver and lead than any other state or country in the world. The number and richness of our mines, the enormous area to be explored, warrant the belief that we shall retain the leadership for many years if not for all time. We have limited the business in all its branches not fully, perhaps but as thoroughly as the lights of the time and practical development have permitted, and the result is vast prosperity and wealth to the world. When capital for investment in gold, silver or lead mining it comes naturally to this state because it presents greater advantages and better opportunities than any other now known.—[Mining Review.

Trustee's Sale.

Whereas, George A. Newton of the county of Pueblo and state of Colorado, did on the tenth day of August, A D, 1885, by his certain deed of trust of that date duly recorded in the office of the county clerk and recorder of the county of El Paso and state of Colorado in book 61, on page 20[illegible] of the records of said El Paso county, convey unto Frederic H Sharpless (now deceased) and unto the acting county clerk of El Paso county Colorado as successor in trust, of said Frederic H Sharpless, trustee deceased certain real estate situated in the county of El Paso and state of Colorado, described as follows:

That part of the south east quarter of section four (4), township fourteen (14) south of range sixty seven (67) west [illegible] described as follows: Beginning at the northwest corner of Wenker's one half acre, run south [illegible] west (variation [illegible]) one hundred and fifty two (152) feet, thence south two hundred and nine (209) feet, east seventy eight (78) feet north seventy-seven (77) feet, to Wenker's southwest corner thence north 1[illegible] east forty six (46) feet to a stake in Southerland creek thence down said creek to place of beginning. All situated in the county of El Paso and state of Colorado.

Which conveyance was made in trust to secure the payment to William Hacker of one certain promissory note of Frederic Hermann of even date therewith for the principal sum of fifteen hundred ($1 500) dollars with interest thereon at the rate of ten per cent (10 per cent) per annum from date of said note until paid. Interest payable monthly, and

Whereas, said deed of trust provides that in case default be made in the payment of said note and the interest thereon or the taxes and insurance on said premises according to the tenor and effect of said note and trust deed then and in that case upon application of the legal holder of said note and trust deed it should be lawful for said Frederic H Sharpless, trustee, or in case of his death resignation removal or absence from the said county of El Paso, or refusal or inability to act in the premises for the then acting county clerk of the said county of El Paso to proceed to sell and dispose of said premises for the purpose of paying said principal sum and interest, taxes and costs of sale and

Whereas the fact is that default has been made in the payment of said note, a portion of the interest as well as the taxes and insurance on said premises and

Whereas the same is now over due and unpaid and whereas Frederic H Sharpless trustee in said deed of trust mentioned, is dead,

Now, therefore public notice is hereby given that at the request of William Hacker, the legal holder and owner of said note and under and by virtue of the authority in me vested by the terms of said deed of trust, I Edwin J Eaton the acting county clerk of El Paso county, Colorado successor in trust of Frederic H Sharpless deceased, will on Thursday, the 14th day of October, A D 1886, at the hour of ten (10) o clock in the forenoon of said day, at the front door of the court house in the county of El Paso and state of Colorado sell the above described real estate to wit:

That part of the south east quarter of section four (4) township fourteen (14) south of range sixty seven (67) west, known and described as follows: Beginning at the north west corner of Wenker's one half acre run south [illegible] west (variation 1[illegible] east) one hundred and fifty-two (152) feet, thence south two hundred and nine (209) feet, east seventy eight (78) feet north seventy seven (77) feet to Wenker's southwest corner thence north 1[illegible] east forty six (46) feet to a stake in Southerland creek thence down said creek to place of beginning, all situated in the county of El Paso and state of Colorado.

Together with all the right, title, interest and benefit of equity of redemption of the said George A Newton his heirs and assigns therein to the highest and best bidder for cash that the same will bring for the purpose of paying said promissory note and the interest thereon and taxes and insurance premiums paid thereon, together with costs and expenses of executing this trust.

Whereas William Ross of the county of El Paso and state of Colorado, did, on the 15th day of June, A D 1885 by his certain deed of trust of that date duly recorded in the office of the county clerk and recorder of El Paso county, and state of Colorado on the [illegible] day of July A D, 1885 in book [illegible] at page [illegible] of the records of said county convey unto the undersigned, John Campbell of said county as trustee and in case of his failure from any reason to act as such trustee then to the then acting county clerk of El Paso county Colorado as the successor in trust, the following described real estate situated in the county of El Paso and state of Colorado to wit:

Lot number twelve (12) in block number one hundred and twenty four (124) in the city of Colorado Springs Colorado, which conveyance was made in trust to secure the payment to R. A. McIntyre of two certain promissory notes of the said William Ross, of even date therewith for the principal sum of six hundred and sixty five ($665) dollars payable six months after date with interest thereon according to the tenor of said notes, and

Whereas said deed of trust provides that in case default be made in the payment of said notes and the interest thereon, or the taxes or insurance on said premises according to the tenor and effect of said notes and trust deed, then and in that case upon the application of the legal holder of said notes and trust deed it should be lawful and proper for said John Campbell as trustee or in case of his death resignation, removal or absence from the said county of El Paso or refusal or inability to act in the premises, for the then acting clerk of El Paso county, Colorado to proceed to sell and dispose of said premises for the purpose of paying, and pay, said principal sum and interest and insurance, taxes, and costs and expenses of sale, and

Whereas the fact is that default has been made in the payment of said note and the interest, as well as the payment of the taxes and insurance on said premises, and

Whereas the time of payment of said notes has passed, and said notes are now over due and unpaid,

Now therefore, public notice is hereby given that at the request of R. A. McIntyre, the legal holder and owner of said notes, and under and by virtue of the authority in me vested by the terms of said deed of trust, I, the said John Campbell or in the case of my failure from any reason to execute said trust, then the undersigned Edwin J. Massachusetts Mugwumps Make a Poor Showing.

Oliver Ames Nominated by an Immense Majority

Wiggins' Predictions Fortunately Come to Naught.

Massachusetts Republicans

BOSTON, September 29 Republican state convention called to order at 11 o'clock. Hon. ... delivered a brief speech setting forth the objects of the convention, eulogizing the nation's ... of the republican party ... ... upon fealty of the republican party to ... and philanthropy and its fearless ... of death from the third party. Permanent organization was effected by the selection of Henry Cabot Lodge as president with a list of vice presidents. Among the latter ... Senators Dawes and Hoar, Congressmen Long, Rice, Ranney, Hayden, Whiting and Davis. Lodge addressed the convention at considerable length. After Lodge's speech a letter was received from the Woman's Christian Temperance union, asking for prohibition candidates and resolutions, which was appropriately referred. Resolutions reported by the committee were unanimously adopted after a short debate over the prohibition plank. Following is the result of the ballot for governor: Whole number of ... 934, necessary to choice 468. Oliver Ames 845, M W Crapo 35, J D Brackett 10, Henry Cabot Lodge 2, George D Robinson ... The nomination was made unanimous and the convention took recess until two o'clock.

The rest of the ticket nominated is: For lieutenant governor, J Q A Brackett, secretary of state Henry B Pierce, treasurer, A ... auditor, Charles Ladd, attorney general Edgar J Sherman.

Following are the essential features of the platform. On the subject of temperance it says:

Recognizing in intemperance a destroyer of ... and a means of corruption in politics ... most fruitful source of pauperism and crime, we imperatively affirm that both patriotism and philanthropy demand most strict enforcement of the laws enacted to suppress ... pernicious evil. We pledge ourselves to ... as a candidate for office no man who is ... or unwilling, to do his whole duty in ... the laws and to favor at all times ... further legislation as may be necessary to render the existing law more effective. We ... submission to the people of an amendment to our constitution prohibiting the manufacture and sale of alcoholic liquor to be used as a beverage.

The civil service plank is as follows: We ... the civil service acts passed by a republican congress and a republican legislature of this commonwealth our hearty approval and ... We will oppose all open and covert attacks upon them and ... courage no action ... intended to impair their efficiency. Fitness, not political influence, should determine ... appointments to office. Removals should be ... for cause, alone and incumbent should be freed from enforced partisan duty and assessments. We favor the extension of these ... to all business offices in the state ...

The republican party ... true to its instincts ... will deal with the interests of ... capital in a spirit of equal ... The gratitude and esteem ... the republican party feels for soldiers ... of the late war has never failed of ... either in word or deed. It shall ... with the ... part. No just ... be made in their behalf which we ... support. Pledges made them shall ... We demand of the national administration prompt, persistent and determined ... settlement of disputes between ... and Great Britain to the end that ... may no longer be unjustly harassed and despoiled of their property and ... of their occupation. We fully maintain the principle of protection to American labor and American industries. We condemn the recent precipitate and peremptory treatment by our national state department ... sister republic of Mexico, which caused ... of a neighboring power with ... considerations both of friendship and ... should have impelled us to cultivate more intimate relations. A sound currency based on specie in conformity to the monetary standard of the world is of most vital importance to all interests of the country ... coinage of silver dollars at the ... is a constant menace to the stability of our finances. We again demand repeal of the law which requires further coinage of this debased money.

Wiggins' Prediction

GALVESTON, September 29—Up to noon there have been no signs of Wiggins' predicted ... in this section. The weather, ... has been rainy and disagreeable for several days, to day broke clear and continues ... The thermometer registered 72 degrees.

CHARLESTON, noon, September 29—There has been no recurrence of earthquake shocks since ... o'clock yesterday afternoon, although several ... persons felt a slight tremor ... 10 o'clock last night. There were several slight shocks at Summerville last night ... no damage reported anywhere. The weather in Charleston to day is mild and ... the sun shining brightly, temperature ... oppressively warm, and the ... full of activity and hope. In spite of ... prophecy Signal officers here ... received special bulletins from Washington to-day indicating no unusual meteorological phenomena and pleasant weather with ... probability of a shower of rain this afternoon. ... day has been anticipated with a great deal of fear and trembling by hundreds of ... people in Charleston. For the last three or four nights colored churches have been crowded with worshippers and several ... are in progress among these people ... the city. Even the most courageous ... felt ... dread at the approach of ... 29th and although they have ... that they did not believe in ... they have all ... it would be more comfortable to live in Charleston after the ... The ... indications are exceedingly favorable and there are no premonitions of approaching shocks. Local scientists who have given great study to the subject say there is no danger of the occurrence of heavy shocks, and the community will surely settle down ... to day unless there should be unexpected manifestations of disturbances. A ... of feverish excitement and forebodings ... to exist, however, among those who ... passed through the great shock of August 31.

Pleuro Pneumonia

CHICAGO, September 29—Herd ... there ... been ... quarantined except ... Harvey farm ... thoroughly ... state ... suspected cases ... exposure. To day, in the vicinity of the Harvey farm ... the number of forty that had been exposed to pleuro pneumonia were quarantined.

WASHINGTON, September 29—The commissioner of agriculture has received the following letter:

THE PLAINS, VA, September 26th, 1886.
Hon Norman J Colman, Commissioner of Agriculture, Washington D C

MY DEAR SIR—I see by newspapers that Chicago stock yards people are denying the existence of any disease among cattle at their yards. I must beg you to send a veterinarian to this section as soon as possible to look after diseased cattle that were brought directly from a Chicago stock yard by Mr L F Holton. I learn that the disease exists or that cattle are dying in three counties, Fauquier, Prince William and Loudoun, they being cattle bought in Chicago, in every instance cattle from Chicago. I have seen none of them but hear that many of them out of each carload so bought have died and others are sick, some of our farmers say—from Texas fever, but all say the cattle have a cough, which I know is not peculiar to Texas fever. This thing should be stopped if possible, but all my efforts with the Virginia legislature last winter (not being a member) to supplement United States law as to pleuro pneumonia were unavailing. Sincerely yours, ROBERT BEVERLY

The committee has sent Dr Dyer to Virginia to make investigation.

The Markets

NEW YORK, September 29—Money on call loaned from 5 to 10, closing at 5 ... prime paper 4 to 5, sterling exchange ... government bonds dull but strong. The New England deal monopolized much more attention than for the past week. That stock was comparatively quiet until late in the afternoon and its best price was only fractionally higher than that of yesterday, and notwithstanding that its first price was 1¼ higher than the close last evening its net gain for the day is only ¼. The feeling this morning was decidedly bullish and Vanderbilts became a feature of the day. Canada Southern and Michigan Central attracted the most attention although Lake Shore was prominent and strong. Prices were all higher at the opening, advanced over final figures of yesterday ranging from ¼ to ½ generally while New England was up 1¼. There was some fluctuation in early dealings but the market soon became strong led by Vanderbilts. The upward movement culminated about 11:30 by which the Canada Southern had gained 3 per cent and others in proportion. The market thereafter fluctuated within comparatively narrow limits though the general direction of prices was slightly downward and closed rather heavy.

Mining shares were dull. California and Virginia 2 50, Deadwood 2 50, Standard 5 ... Bodie 2 55, Horn Silver 2 00 to 2 05, Mono 2 50.

A Murderer's Mistake

BOSTON, September 29—A colored man pawned a coat here yesterday and afterwards a written confession of murder committed in Cincinnati, written in 1882 and signed by Will H Downs, was found in the pocket. A man was afterwards arrested and at police headquarters admitted that he stabbed a man named Tobie Cain in Cincinnati in October, 1882, and Cain afterwards died. The confession he stated was prompted by troubled conscience. Downs stated to officers that he was arrested for Cain's murder, but on the testimony of Cain's wife and her sister ... was acquitted ... had questionable relations with Cain's wife and that she connived with him to get rid of her husband. He says he wrote the confession ... six months ago to send to a judge of a Cincinnati court, but afterward changed his mind.

A British Point

OTTAWA, September 29—Since the first demand for the release of the Canadian sealing schooner Onward, recently seized by the United States revenue cutter Corwin in the Alaskan sea, was forwarded to the colonial office London to be laid before the authorities at Washington, a supplementary demand has been made through the same channel in which it is pointed out that in the convention signed at St Petersburg between England and Russia one of the articles guarantees to British subjects, from whatever quarter they may arrive, the right to forever enjoy the privileges of navigation and fishing in the Pacific ocean or any point thereof. From this point it is argued that the United States cannot have received from Russia the right to exclusive navigation or the fishing or sealing privilege in Alaskan waters.

A Student's Suit

BOSTON, September 29 Francis R. Brooks of Chicago, formerly a student at Harvard college has commenced suit against the college to recover $50 000 damages. Brooks was engaged in performing an experiment in the chemical laboratory when a retort containing sulphuric acid which he was using, exploded, and he was terribly burned. One of his eyelids was burned off and his face was otherwise mutilated and torn, disfigurement being permanent. It is claimed by the plaintiff that the experiment was being performed under the direction of a professor and that he supposed he was working in safety, and that through the carelessness of the professor in charge the accident occurred.

Illinois Liquor Dealers

SPRINGFIELD September 29—A state convention of liquor dealers to day adopted the report of the committee on resolutions which declares the liquor business legitimate and recognized as such by the state constitution and that it should not be especially loaded down with restrictions and regulations that efforts should be made to secure the repeal of the dram shop act, and that associations should support only such men for office irrespective of party who have shown themselves to be in favor of personal liberty.

Affairs in Bulgaria

SOFIA, September 29—The regency has posted lists of electors for the grand sobranje which is to elect a successor to Prince Alexander. General Kaulbars, Russian special agent, threatens to have the lists removed ... to resent the conduct of Russia in demanding as the price of the czar's protection liberation of political prisoners raising of the state of siege and freedom for all parties to vote in elections to the grand sobranje. It is believed that a rupture between Bulgaria and Russia is imminent.

Shocks in Pennsylvania

PHILADELPHIA, September 29—A special from Lancaster, Pa, says the people of the borough of Elizabethtown were badly frightened last night about 11 o'clock. Two distinct shocks of earthquake were felt. The shocks followed in quick succession, and scarcely had the sound died away when the buildings swayed sufficiently to cause the doors and windows to rattle.

Farewell to Home

RUTLAND, Vt., September 29—Anna, the 15 year old daughter of Dr Hiram C. Hawles, took her father's horse from the stable Saturday night and left home. It was discovered that she had ... late ... at ... to ... her ... She left ... saying that ... would never return. A person supposed to have been the missing girl was ferried across Lake Champlain from ... Point to Ticonderoga about 8 o'clock Sunday morning. Miss Hawley was a popular and finely educated young woman.

French Dueling

BORDEAUX, September 29—M Benoist and ... rival editors of this city yesterday fought their second duel to satisfy a mutual grudge. The first duel was fought Monday with swords. In the combat one broke his weapon and the battle was declared a draw. Yesterday the battle was with pistols at twenty paces. Each fired two shots without effect and the second battle also was declared a draw.

PARIS, September 29—A duel was fought to-day at Montpellier between M Garll, an editor, and Captain Vallcourt of the French army. The quarrel was over an editorial upon certain features of the army maneuvers. Captain Vallcourt was wounded four times by the editor. His condition is precarious.

The Hangman Cheated.

BINGHAMTON, September 29 George Axtell who in May, '85 shot and killed Elias Tillman, H French and William H Perry, and who was in jail here under sentence to be hanged, was found yesterday lying in his cell in an unconscious condition and breathing heavily. The murderer died within an hour. It is not yet known whether Axtell took poison or whether an epileptic fit ended his life.

Fire at Salt Lake

SALT LAKE, September 29—One of the damaging fires that ever occurred in this city started last night just before midnight from a defective flue and burned three buildings, and Pulgrove's music store, Peabl's stationery, Dwyer & Solomon Bros and Gold. Dwyer saved most of his stock. The total loss is about $25 000, insurance one-third.

Fighting at Belfast

BELFAST, September 29 There was desperate fighting to-day between Protestant and Catholic workmen at Barbour's foundry in this city. Police interfered, when the fighters joined forces, stoned and routed the police. The cavalry were summoned, charged upon and dispersed the mob. Scores of rioters and several policemen were injured.

New York Nominations

NEW YORK, September 29 The republican state committee to-day nominated Judge Daniels by acclamation for the court of appeals. The democratic state committee reelected Rufus W Peckham as their candidate for court of appeals.

Cleveland and the Masons

LINCOLN, September 29 The republican state convention to-night nominated John M. Thayer for governor.

He Will Explain to Pat Next Time

From The Boston Home Journal

He returned from his yachting trip, and when the luggage of the gander party was conveyed ashore, the array of empty bottles that had not been thrown overboard was something of a staggerer to look upon. The gentleman not caring to dump them at the anchorage in the face and eyes of neighbors said hurriedly to his man, 'Pat, get those under ground about as quick as you can. Bury them, do you understand?' 'Yis, sor, I do," was the reply, and the yachtsman went home and tumbled into the arms of Morpheus without delay. The next he knew, he heard his wife's voice calling, "For goodness sake, my dear, what has Pat brought all these bottles up here for?' It was but one step from the bed to the window, where the enraged gentleman called out "You blasted Irishman! didn't I tell you to bury those bottles?' "Yer did, sor, and it's divilish quick I'll git 'em buried, now I have 'em so handy sor." The yachtsman wearily explained it to his wife. Next time he will consider it more valorous and discreet to take Pat a little into his confidence.

Captain Bogg's Trick

The Boston Traveller

Captain Boggs a Virginian, who held a captain's license on the Mississippi river before he was of age, and who for fourteen years had the contract to supply the military posts in Utah, Colorado, New Mexico and Arizona with fuel, tells the following story:

'I was down in the Ute reservation in Colorado and had strolled down to the shores of a small lake, while my mules and teamsters were eating dinner, when I came across a party of about a dozen Indians. They were armed with rifles, and were shooting at a snag which stuck out of the water about 200 yards distant. The stakes for which they were shooting were composed of a quarter of a dollar from each man. I stood watching them for some time, and then decided to enter the competition. Each man had three shots, and the man who hit the snag the most times won the pot. The misses were told by the splash in the water, the hits by the absence of the splash.

'After some parley with the redskins I got them to allow me to enter the match, though they compelled me to deposit half a dollar, while they put in but a quarter. I had a Henry repeater with me that, fortunately for my purpose, was then unloaded. I was accounted one of the best shots in that country, but knew that the Indians were not by any means slow. I slipped three cartridges into my rifle, and as I did so I broke the ball off, thus leaving a blank cartridge. Of course no splash followed any of my shots, and the Indians thought I had hit the snag every time. I won that pot, but the next time I mentioned ... by not breaking the balls off and by taking a different aim.

'I then broke all the balls off until I had won $15. Then the Indians who began to look at me with suspicion refused to shoot any more. I invited them up to the store and spent the money on knick knacks which I divided among them. I then took them back to the lake and showed them the trick. They were very much surprised, but took it in good part.

'On returning that way a few days after I found the same Indians on the lake shore shooting a big match with a neighboring tribe, whom they were rapidly cleaning out of everything. I learned that they had 'skinned' every Indian in the country that they could get to shoot against them. I said nothing, but mused on the readiness of the savage to adopt the white man's tricks."

The Princeton Expedition

A scientific expedition from Princeton college has just returned from a trip to the White river fossil beds. The expedition, consisting of eight members, was under the direction of Professor W B Scott, the professor of geology at Princeton and Francis Speir jr of New York city, a graduate of Princeton in the class of '77. The expedition left Fort Bridger, Wyoming, in the latter part of June and spent two weeks in collecting specimens from the fossil beds near Henry's Fork. Chief among the many valuable specimens discovered in the fossiliferous strata of this region was the only complete skeleton in existence of a mesonyx, a large carnivorous animal of the Eocene age. As soon as the expedition had finished its work in these beds it crossed the Uintah mountains and proceeded to the almost unexplored and very rich fossil beds on the White river. Here it was that the expedition achieved its greatest success. With the exception of the specimens in Yale college, Princeton now possesses the only collection of fossils from the White river Eocene formation. Princeton's collection is far more more varied and larger than that of Yale.

Among the many important and interesting specimens found in this stratum were the skeletons of the Amynodon ancestor of the rhinoceros, of the laperoid, represented in modern times by the tapir and several complete skeletons of the modern horse, which in this age was a five-toed animal about the size of a small dog. Other specimens of carnivorous animals as well as a number of small pterodactyls were also found, some of which were hitherto unknown to science.

This is the seventh expedition sent out by Princeton within the past nine years, and like the others it has collected many new specimens for the Princeton museum, as well as in some measure it has subserved the cause of science.

A Discriminating Housemaid

Boston Record

It is apparent to the historian that the Boston servant girl has another standard by which she judges of the social importance and desirability of employers than that of wealth.

A young girl who had served with a fair amount of zeal the family of a gentleman of his acquaintance, who earned a rather meagre and precarious living by his pen, thought to better herself by leaving this household and accepting an engagement in the household of a wealthy harnessmaker. The latter had everything that was elegant in his house, including hot and cold water and set tubs. The family that she was leaving, on the contrary, lived in a poor way in a little house, whose furnishings may have been æsthetic, perhaps, but were not costly. No wonder the mansion of the rich Philistine attracted the girl!

Four weeks after her departure she paid her ex mistress the honor of a visit.

'Well, Maggie," said the latter, 'have you a nice place?'

"Ye-a'm, but I don't exactly like the house'

'Why, what is the matter? I thought everything was very nice there"

'Oh, it are, Mrs , but you see they ain't swell there, like you!'

Association of Ideas

Boston Record

When little Louis' mother was putting him to bed the other night he said to her

'Mamma, sing that song you sunged last night."

"But I sang several last night, Louis. Which one do you mean?"

Oh, that pretty one you sunged"

'But how can I tell which one you mean? Can't you remember some of the words that were in it? What was it about?"

"I guess it was about Jesus and the pump."

"Jesus and the pump' Why, what a strange boy! There isn't any such song"

"Oh, yes, there is mamma!'

The mother thought long and earnestly, and at last it dawned on her what the boy meant, and so she sang, to his entire satisfaction—

> Jesus the water of life will give,
> Freely, freely, freely

The power of association in the infantile mind is a very interesting thing.

The democrats of Fountain hold their primaries to-day.

Democratic primaries this evening at the city hall at 8 o'clock.

Mr. J. F. Seldomridge went to Denver on the Thunderbolt yesterday morning.

A party of eight ladies went up to the Seven Lakes on burros on Tuesday.

Mr. J. E. Cole of Buena Vista is in the city and will remain for two or three days.

Mr. A. Gottenham a member of the English parliament is registered at The Antlers.

Mr. G. M. Arnold and wife left yesterday for a visit east. They will be gone several weeks.

The Democrat nominates A. L. Lawton for state senator and E. A. Smith for county judge.

Kellar the magician, and Daly's Vacation company, are among the attractions booked at the opera house for October.

Messrs. Irving Howbert and John Campbell returned from attending the republican state convention on the late train last evening.

Mr. and Mrs. T. P. Bunnell were called by telegraph yesterday to West Point, where Mrs. Bunnell's mother lies seriously ill.

A pumpkin weighing 100 pounds, grown in the garden of Mr. R. H. Randolph, was yesterday placed on exhibition in Mr. Dow's window.

The name of Mayor M. A. Leddy of Manitou has been mentioned in connection with the nomination for the legislature by the democratic county convention.

The "Two Johns Comedy company" leave for Pueblo by the Salt Lake train this morning where they will play this evening. From there they will go to Dodge City, Kansas.

Furnished houses being scarce nowadays, we call attention to one advertised by Captain De Coursey, for which he is anxious to get a careful tenant, rather than a high rental.

To-day being the last Thursday of the month is market day. A number of choice cows and horses will be offered for sale. The sale will begin about 10 o'clock this morning.

There will be no more polo games for a few days as the horses used need rest. Quite an interest has been developed in the game and there is no reason why it should not become popular here.

Tie-laying has begun on the Midland between here and Colorado City. A car load of steel rails arrives nearly every day for the Midland, and they are pronounced to be of an exceptionally superior quality.

Rev. James B. Gregg, pastor of the Congregational church will take a two weeks vacation, and will leave next Monday for Des Moines, Iowa, where he will attend the meeting of the board of foreign missions of the Congregational church.

Over 147 men arrived yesterday afternoon over a special train on the Denver, Texas and Gulf railway to work on the Midland. They were mostly Italians and are a part of a gang of 300 men who will arrive in the course of a few days. Sixty of the men went to work for McMurtrie & Streeter, and the remainder, under Mr. George W. Cook, left on the late train for Leadville, where they will be put to work on the tunnel near that city. Over twenty men arrived yesterday over the Denver and Rio Grande to work for McMurtrie & Streeter.

The next attraction at the opera house will probably be a select concert under the management of Mr. Tolmie of Denver, who is well known in this city. The concert will probably be given on Monday, October 11th. The programme will be announced soon.

Yesterday afternoon Donald Matheson, aged eight years, failed to return home from school and up to 10 o'clock last night he failed to put in an appearance. He lives at 830 Cache la Poudre street, and was attending the Weber street school. It is not thought that anything serious has happened to him, but that he will turn up this morning.

Quite a number of our sportsmen are waiting for the time to begin in which antelope may be hunted. Ranchmen from the eastern part of the county report antelope as being unusually plentiful, owing in a great measure to the death of Antelope Jim, their deadliest enemy.

Antlers Arrivals—J. C. Stewart and wife, F. C. Stewart and wife, Paul Dresser, John S. Crossy, "Two Johns" Comedy company; W. A. Otis, C. A. Otis, jr., J. W. Lee jr., ranch; J. S. Moore, Chicago; A. Bonnell and wife, city; E. E. Brunson, Denver; Mr. and Mrs. F. H. Perkins, Mrs. I. A. Perkins; H. T. Cook, city; T. W. Cook, Leadville; Mrs. H. H. Stanton and maid, Topeka; George M. Klein, Vicksburg, Miss.; A. McArthur, A. V. Hartwell, Chicago; Dr. H. F. Hamilton, Boston; A. Gottenham, M. P., England.

The first case against Mr. C. W. Church for violating the liquor ordinance was called yesterday afternoon at two o'clock before Police Magistrate Severy, Judge Jehu Fields appeared for Mr. Church and Mr. T. A. McMorris, city attorney, appeared for the city. Three witnesses were called and examined. They testified that they had drank no liquor on Mr. Church's premises since the passage of the ordinance forbidding the sale of liquor to be drank on the premises. The cross examination developed the fact that Mr. Church and his clerks had repeatedly refused to sell any liquor to be drunk on the premises. Judge Severy, after listening to the testimony, dismissed the complaint and judgment was entered in the case against the city. The costs, amounting to nearly $100, will have to be paid by the city. The next case will be called this morning at 10 o'clock before the same court.

The man Kerns who was injured in the row of Tuesday morning was yesterday reported to be improving. His wounds are not so serious as at first supposed, and he will be able to be about in a few days. Further light was yesterday thrown upon the row, which places Kerns in any but a favorable position. It appears that on Tuesday morning Kerns was given a dollar by two men, who he claims assaulted him, to get some whiskey. Kerns, instead of returning to the men who gave him the money, in company with another man, left town, presumably on their way to Pueblo. As soon as the two men in town heard of their whereabouts, they started to overtake Kerns and his partner, and met them at the railroad bridge, where the fight, as narrated in our issue of yesterday, occurred. None of the men were near the beer garden, and what whiskey they had was not procured there. One of the men engaged in the row offered to give himself up yesterday, but no arrests have as yet been made.

A large audience greeted "The Two Johns" Comedy company at the opera house last evening and all left well pleased with the evening's performance. The performance was exactly as it was advertised to be, no stress being laid upon the development of any plot. It was intended to amuse, and as such accomplished its purpose admirably. Five minutes after the curtain went up the audience were convulsed with laughter, and a continuous roar was kept up to the end of the performance. The appearance of "The Two Johns," Messrs. Stewart and Dresser, always provoked laughter, and their work was such as to entitle them to a high rank among the standard comedians. Their support was excellent and greatly added to the success of the entertainment. Altogether it was one of the most pleasing performances which has ever been given in the opera house.

Quite an interest was yesterday manifested on the part of many in the proceedings of the state convention, and the bulletins which the GAZETTE put out on its bulletin board were eagerly scanned. News of Meyer's nomination for governor was received about 5 o'clock but that was not what the majority of the inquirers were concerned about. Have you heard anything about Sagendorf? and will he be nominated? were the questions most asked. When Meyer's nomination was learned and the fact that El Paso county had cast her 13 votes for him on each ballot, it was generally supposed that Sagendorf's nomination was assured. News of Rice's nomination was received over the telephone about half past eight o'clock and general regret was expressed over Mr. Sagendorf's defeat, though Mr. Rice's nomination was regarded as a particularly strong one.

NATURE'S REMEDY.

DISEASE CURED WITHOUT MEDICINE.

Electric Belt and Suspensory — For all Personal Weakness of men

We take pleasure in announcing that we have secured the agency of the celebrated Dr. Clark Electro-Magnetic Belt, patented October 20th, 1885, and which is unquestionably the crowning triumph in Electric science. It embodies such vast and radical improvements over all other belts, that its advantages over them can only be understood by comparing our present railway systems to the old overland coach. In short, this is THE Electric Belt of today, and contains as marked improvements in Electricity for self-treatment as today's telephone does over those of six years ago. That these statements are facts is conceded by the U. S. Government in their recent patents to us, and arguments are therefore unnecessary. This belt will infuse the current into the spinal column, which is the grand nerve centre of the body, and also gives direct currents to the Stomach, Liver, Sexual Organs, or any weakened or diseased part, thus permeating every part of the body, and will positively cure Nervous Debility, Pains in the Back, Hips or Limbs, Lumbago, Rheumatism, Kidney and Bladder Diseases, Neuralgia, Dyspepsia, all Weakness of the Sexual Organs, Piles, General Ill Health, &c. Electric Suspensory for men free with every Belt.

We take it for granted that every buyer of an Electric Belt wants the BEST MADE, and it is therefore to the interest of sufferers to call and see this famous belt before buying, as it costs no more than the inferior old styles, produces stronger and more lasting currents, and is indestructable. We warrant it to last for years and whole family can wear same belt. It is lighter and more convenient to wear than any other. TO MEN suffering any personal weakness we especially recommend it, and will be glad to give the highest private references as to what it has done and is doing. Get our Pamphlet No. 1 illustrated, and containing full information. By mail, enclose 4 cents postage.
